

ADI COURSE CONTENT

Part 1 - Written Test

The written test calls for a high standard of knowledge. It is a single paper of 100 questions. For every question a choice of four answers is given. Only one of these answers is correct. The questions are broken down into four main categories, each consisting of 25 questions. You have 90 minutes to complete the test. The pass mark for the test is 85% and a minimum of 80% must be attained in each category.

You will also have to take a Hazard Perception Test in which you have to score 57 out of a possible 75 points.

To enable you to undertake the Part 1 test we supply you with the reading material recommended by the DSA. Once you are happy with your knowledge, you can apply to sit the Part 1 test. Dates for the test are usually available within two to three weeks of request. The test can be taken at local theory test centres.

Part 2 - Test of Driving Ability

The practical test of driving ability consists of an eyesight test and driving techniques test.

The eyesight test consists of reading a car number plate at a distance of 27.5 metres (90 feet). You can wear glasses or contact lenses if you require.

The test of driving technique lasts for about one hour and is of an advanced nature - a very high standard of competence is required. You must show you have a thorough knowledge of the principles of good driving and road safety and that you can apply them in practice. In particular, you must satisfy the examiner on any or all of the following subjects:

- ~ Expert handling of the controls.
- ~ Use of correct road procedure.

- ~ Anticipation of other road users and the taking of appropriate action.
- ~ Sound judgement of distance, speed and timing.
- ~ Consideration for the convenience and safety of other road users.

For the Part 2 test we supply in-car training on a one-to-one basis to bring you up to the required standards. This training will run concurrently with your Part 1 training..

Part 3 - The Test of Ability to Instruct

The object of this test is to assess the value of the instruction you give and your ability to pass this knowledge on to the examiner, who will take the role of a pupil.

For this we provide further in-car training. This will take place after you have completed your Part 2 training and will enable you to take out a trainee licence (if you wish) for a period of six months, once you have passed your part 2.

Once your trainee licence has been granted, you will be required to undertake a further training during the first three months of the licence. During this period we will carry out a number of mock tests to prepare you for your Part 3 test.

The Part 2 and Part 3 tests can be taken a maximum of three times each.
